

# HOLDING COMPANIES in the DIFC

## Holistic business environment to centralize investments

Selection of the most suited jurisdiction to centralise operations is of utmost importance for any global business. The DIFC offers excellent options for incorporating holding as well as proprietary investment companies. Holding companies can be used to hold assets in the UAE, which can include freehold property and shares in other companies in the UAE and across the globe.

Most suited to consolidate worldwide investments, especially given the credibility of the independent regulatory environment in the DIFC as a well-regulated jurisdiction, and the familiarity of Common Law.

### FEATURES

- 100% ownership
- Common Law Framework
- Flexible corporate structures
- Tax efficiencies

### USES

- Asset Holding and Transfer
- Intellectual Property
- Real Estate Investments

Holding company being a non-regulated activity, the incorporation applications are reviewed by the DIFC Registrar of Companies (ROC) independent of the financial regulator, DFSA.

Among other requirements, it is mandatory to have an office within the DIFC and associated costs are based on the location and space.

## WE ARE 10 LEAVES

We are a consultancy firm based in the ADGM and the DIFC and specialize in corporate structuring for both financial and nonfinancial entities. We use cutting-edge technology for efficiency yet maintain the personalization of human interaction.

Over the past fifteen years, we have helped multiple clients improve their corporate structure and expand their businesses within the UAE.
